FAIR-PLAY SCOREBOARDS

CaptiVue Pixel Pitch Options

AMBER PIXEL PITCH OPTIONS. Take a look at this Fair-Play scoreboard model FB-8127-2 in a 24 x 80, three-line display. The physical dimensions of your message display will change based on the pixel pitch you select. A 1.375-inch pixel pitch, for example, yields 25 square feet of active area—but when converted to a 2.5-inch pixel pitch, the active area jumps to 83 square feet. Choose a smaller pixel pitch when higher resolution images are important. Select a larger pixel pitch for open playing fields and stadiums, where longer viewing distances are necessary.
